

JASON HUBSCH

WEB DEVELOPER

PROFESSIONAL SKILLS

Emphasis on high-quality code with readability, efficiency, and maintainability in mind. Setup server hosting space for new projects/clients, handle site migrations and DNS changes. Also ensures all applications function as intended in all mediums, browsers, and devices. Diagnose and resolve bugs/support requests as well as keep all code, plugins, and extensions up to date.

EXPERIENCE

LEAD WEB DEVELOPER

Globe Runner | 2018 - Present

Collaborated with a design team to create high-quality new and revitalized websites for clients. Oversaw hiring of external supplementary contractors for design and development as well.

- Oversaw merger with acquired agency, including migration of 50+ websites to our servers with relevant DNS records updates for zero downtime and seamless transition
- Created process documentation for company project completion guidelines
- Cultivated standards and best practices for library of approved plugins and tools to use company-wide for web development

WORDPRESS DEVELOPER

Unlock the Game | 2018-2019 (Contract)

Brought in to help assist company's client list with myriad lingering issues on their websites.

- Fixed recurring SSL issue & troublesome DNS records for more than a dozen sites
- Brought websites up to date with code, plugins, and core functionality
- Worked with a global team comprised of people from all around the world meeting up virtually twice per week

EXPERIENCE continued

WEB PLATFORM ENGINEER

Team CDS / DAS Global | 2014 - 2018

Originally brought in as an assistant, I would end up overseeing the entirety of the company's IT Department functions, communicating with team members in different parts of the country to execute tasks.

- Installed and set up hosting server environments for data center
- Built out websites in WordPress from PSDs supplied by client
- Performed regular maintenance and upkeep on three dozen websites

WEB CONTENT SPECIALIST

School Family Media | 2010-2014

Worked with a small team at a company dedicated to providing support to schools, PTOs, and PTAs across the country.

- Created, tested, and deployed content for several websites through Joomla
- Helped build and launch new property: TeacherLists.com
- Tracked site performance through Google Analytics

WEB CONTENT EDITOR

Reed Business Information | 2008-2010

Worked alongside editors for 3 industry trade magazines in a small department within a global corporation.

- Responsible for creation and deployment of HTML email newsletters
- Published and maintained magazine articles on website via custom CMS
- Regular meetings with editorial staff to outline expectations for upcoming cycle
